Debt Service Overview

As part of the annual budget process, the City Council adopts a comprehensive set of Financial Policies. These policies serve to establish and document a policy framework for fiscal decision-making and to strengthen the financial management of the City. One of these policies specifically addresses Debt Service, and incorporates two subcomponents. First, debt service targets have been identified for the following: annual debt service expenditures shall be less than nine percent of annual expenditures and outstanding debt shall be less than three percent of assessed valuation. Second, the term of any bond issue shall not exceed the useful life of the capital project/facility or equipment for which the borrowing is intended.

The City of Fairfax must adhere to debt limitations as outlined by the Virginia State Constitution, which requires that the City may not issue bonds in excess of 10% of assessed valuation. Per the City's FY 2019 Comprehensive Annual Financial Report (CAFR), approximately \$134.1 million of outstanding debt is applicable to the limit of 10% of assessed value (approximately \$633.6 million). Thus, the City's total net debt applicable to the limit as a percentage of the debt limit is 21.2%.

The City consults with its financial advisors and bond counsel to explore the most cost effective financing options for all debt issuances. This adherence to prudent fiscal management has allowed the City to make several long term infrastructure improvements for its residents. The City currently receives the highest bond ratings from two of the national bond rating organizations - Standard & Poor's and Moody's Investors Service.

Standard and Poor's Rating Services rated the City AAA, the highest credit rating attainable, citing "...a city economic base that has remained strong throughout the current recession; the City's demonstrated ability to manage its budget effectively translating to a history of strong reserves...strong financial performance and position, aided by financial and debt policies and conservative management...". Of the 39 cities in Virginia, only nine currently carry AAA ratings: the cities of Alexandria, Charlottesville, Chesapeake, City of Fairfax, Falls Church, Poquoson, Suffolk, Virginia Beach and Winchester. In addition, Moody's has affirmed the AAA rating for the City, that the City's underlying General Obligation credit is the highest possible. Per Moody's this rating reflects "a favorably-located tax base experiencing recessionary value declines, above-average wealth indices, stable financial operations with satisfactory reserves and a favorable debt profile."

The City is currently repaying bonds for projects to construct or improve City schools, the Blenheim property, streets, municipal buildings, underground utilities, construct a library, purchase and develop open space, improve storm drainage, and develop ballfields and a park. The following chart provides a summary of total debt service and capital lease payments due from the General Fund. Debt service for the Wastewater Fund is noted in section E of this book (Wastewater Fund).
