First Street / Second Street Sidewalk Feasibility Study

Return to the Transportation Division by **Friday, March 31**
In person: City Hall, Public Works: 10455 Armstrong Street Room 200
By email: transportation@fairfaxva.gov

PLEASE PRINT

NAME: _____

ADDRESS: _____

EMAIL ADDRESS: _____

The purpose of this study is to develop a preliminary concept plan to identify the recommended location of new sidewalks on First and Second Streets and to identify potential costs and impacts. Your feedback will help staff and City Council understand community concerns and level of support for these proposed sidewalks and determine how future funding for new sidewalk construction should be prioritized.

1. In general, do you support constructing sidewalks on First Street and Second Street?

- Yes No

2. Please indicate your support and provide comments on each proposed sidewalk segment. Please use the back of the page if you need more space for comments.

(1) First Street between Hallman Street and Walnut Street:

- Support Neutral Oppose

(Optional) Provide comments on this segment:

(2) First Street between Walnut Street and Oak Street:

- Support Neutral Oppose

(Optional) Provide comments on this segment:

(3) Second Street between Walnut Street and Oak Street.

- Support Neutral Oppose

(Optional) Provide comments on this segment:

3. If approved, sidewalk construction may be phased due to the anticipated high cost of each segment and limited funding for residential sidewalks. **If this project is phased, which block should be prioritized first? Please rank your priorities (1= most important).**

- ___ Block (1): First Street between Hallman Street and Walnut Street
___ Block (2): First Street between Walnut Street and Oak Street
___ Block (3): Second Street between Walnut Street and Oak Street

Use back of page for additional comments.
